# NAUI DIVEMASTER

Take the first step in your dive career and become a Divemaster. Working closely with an instructor, you'll expand your dive knowledge and hone your skills as you become a dive professional. Divemaster training develops your leadership abilities by training you to supervise dive activities and assist instructors with student divers.

What can Divemasters do?  
Work at local dive centers, on live-aboard dive boats, yachts and at exotic resort locations  
Assist instructors with students  
Lead scuba divers on guided dive tours  
Teach and certify skin divers  
Teach Discover Snorkeling programs  
Conduct scuba review programs for certified divers

## In this course you will:

Learn dive leadership through classroom and independent study sessions

Complete water skills and stamina exercises in confined and open water

Training exercises to test organizational and problem solving abilities

An internship or series of practical training exercises

You earn your Divemaster rating by reviewing the material and completing certification dives.
